

CRC Diagram — HR Management System

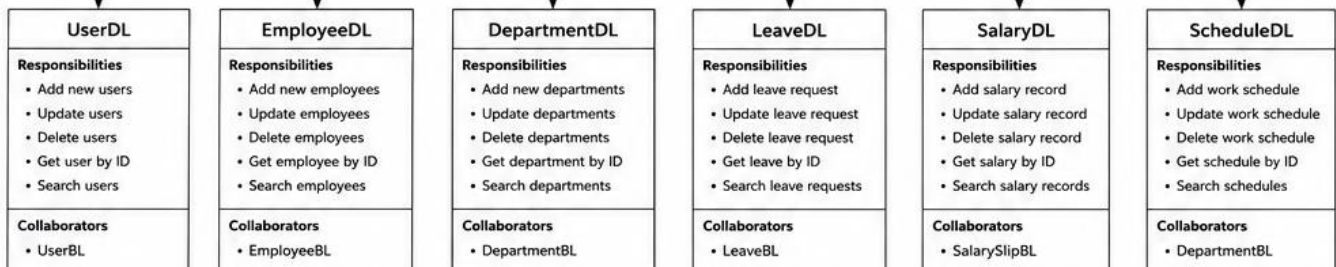

INTERFACES

BUSINESS LAYER

DATA LAYER

RELATIONSHIP SUMMARY

- > Inheritance (extends)
- - - - -> Implements Interface
- - - - -> Uses / Collaborates (depends on)

NOTES

- All Business Layer classes implement the applicable interfaces: IValidatable, ISaveable, ISearchable.
- Business Layer classes use corresponding Data Layer classes to perform persistence operations.
- Validations class is used by business classes for validating data and business rules.
